THE AMERICAN ASSOCIATION
FOR THE ADVANCEMENT OF SLAVIC STUDIES

PURPOSE: The American Association for the Advancement of Slavic Studies, Inc., is a professional organization which seeks to advance scholarly study, publication, and teaching relating to the Soviet Union and Eastern Europe. It is a nonprofit, nonpolitical group which serves its members through various publications and related activities.

PUBLICATIONS: The principal publication of the "Triple A Double S" is the SLAVIC REVIEW: American Quarterly of Soviet and East European Studies. The Review carries scholarly articles dealing with all parts of the Soviet and East European area and representing the various academic disciplines of the social sciences and humanities. The editorial offices of the Review are at Columbia University. The Newsletter, published twice a year at the University of Illinois, disseminates information on professional conferences, institutional developments, grants and fellowships offered and awarded, and other activities of individuals in the Slavic and East European field. The American Bibliography of Russian and East European Studies, an indispensable reference guide to books and articles in the field, is distributed yearly to each member of the Association by special arrangement with Indiana University. The Association's Directory contains a biographical entry on each member as well as supplementary listings by geographical location and by discipline.

MEETINGS: To supplement the sessions relating to the Soviet Union and Eastern Europe that are normally a part of the annual conventions of the various associations in the disciplines, the AAASS encourages interdisciplinary meetings on a local and a regional basis. The Association welcomes the formation of chapters or branches by groups on their own initiative, and assists such efforts in any way possible. The regional and other affiliated groups meet normally at least once a year. The Association holds its national conventions less frequently. The first was in 1964 in New York.

MEMBERSHIP: Membership in the Association is open to all persons interested in furthering Slavic, East European, and Soviet bloc studies. Regular memberships are $12 per year and sustaining memberships are $25 per year. A special student rate of $5 per year (without vote) is available to persons who are full-time students only. (Higher postage costs unfortunately limit the $5 rate to those with U.S. mailing addresses. Students elsewhere may join as regular members.) There are also nonvoting associate memberships at $12 per year. A new rate of $5 has been added this year for members who have reached emeritus status. All classes of membership receive the quarterly Slavic Review, the annual American Bibliography of Russian and East European Studies, and the twice yearly Newsletter, plus the Directory in those years when one is published.

Memberships and subscriptions run on the basis of the calendar year (i.e., the year ending each December 31). All communications regarding membership and subscriptions should be sent to: Mrs. Agnes W. Wilson, Manager, AAASS 1207 West Oregon Street, University of Illinois, Urbana, Illinois 61801.
NOW YOU CAN GET A FACSIMILE REPRINT OF EVERY ISSUE OF NOVYI MIR, 1925 THROUGH 1934, FROM XEROX EDUCATION DIVISION LIBRARY SERVICES.

AMERICANS AND THE SOVIET EXPERIMENT, 1917-1933
By PETER G. FILENE
This is a study of the interaction between Social-Democracy and the labor movement in Russia. It covers that crucial period during 1905 when Social-Democracy emerged as a factor of consequence on the political scene, only to divide into two separate parts that became Social-Democracy, on the one hand, and, on the other, the authoritarian labor movement that assumed the name of Communism. Solomon M. Schwarz was a Menshevik spokesman on labor affairs and a member of the Kerensky government. His new book, The Russian Revolution of 1905, is the first volume in a comprehensive series, "The History of Menshevism," that will alter the understanding of the Russian revolution. Under Leopold H. Haimson, surviving Menshevik leaders have cooperated to prepare memoirs, monographs, and other scholarly materials. English-language volumes in this series will include "The Making of a Workers' Revolution: Russian Social-Democracy, 1891-1903," by Allan Wildman, and "Menshevism under Soviet Rule," edited by Haimson.

1967 LC: 66-20582 361 pages, $8.95

This book lists, with evaluations, almost 1,600 basic Russian works in all scholarly fields, except the natural sciences and technology. Both Czarist and Soviet periods are covered. "The layout is clear and it is easy to find the basic material on a broad topic. Annotation evaluates the significance of many entries, and in some cases translations are indicated. The detailed bibliographical section at the beginning and the bibliography given with many classes should be invaluable for the researcher. Recent publications are also included."—A. Hellwell, Slavonic and East European Review (London).

1962 LC: 62-20022 313 pages, $6.50

"...it is clear that it will be for a long time an indispensable tool in the hands of librarians who are building Slavic holdings in this country. It also will serve as a checklist and an initial research bibliography useful for both instructors and students. This example of a collective work done under experienced editorship appears to have been highly successful."—Waclaw W. Soroka, The Slavic and East European Journal.

1965 LC: 65-12041 473 pages, $8.95

The Notebooks make available in English for the first time a complete rendering of Dostoevsky's sketches, variants, opinions, and random reflections on Crime and Punishment. Nowhere is Dostoevsky's concern with craft, style, and factual accuracy more apparent than in this record of the alternative ideas he worked with—the plans, actions, and scenes that were never used. Characterizations differ in important points from those given in the printed novel. In addition, this book includes eight pages of reproductions from the original manuscripts. Most important, The Notebooks provide information that bears on critical points of interpretation. This is the first in a series. Future editions in English will include The Notebooks for: The Idiot, The Possessed, and The Brothers Karamazov.

1967 LC: 66-23702 246 pages, illustrated $6.95

"...a judicious combination of seminal works and more recent commentaries that achieves the editor's purpose of stimulating curiosity and developing a point of view."—C. Bickford O'Brien, The Russian Review. "These three volumes cover quite well the main periods of Russian civilization, the choice of the articles and other material is made by a competent and unbiased scholar."—Ivan A. Lopatin, University of Southern California.

1964 LC: 64-15814 401 pages

Three volumes, paperbound $3.75 each volume
One volume, clothbound $12.50

"Mrs. Bill has applied her considerable experience as a university teacher of Russian in a new and valuable way in her representative collection of Russian texts, to illustrate by good examples of scholarly writings 'the forces which have shaped the development of the Russian people'."—C. L. Wrenn, Modern Language Review.

1965 LC: 59-10301 163 pages, $4.00

Designed for non-native students and teachers of Russian who already have some knowledge of the language, this linguistic exposition of the structure of Russian includes chapters on phonology, orthography, and derivation. Examples from modern Russian literature illustrate the text. "There can be no doubt that this book will furnish the advanced student of Russian with a great deal of useful information..."—D. H. Jones, The Cambridge Review.

1965 LC: 65-25439 297 pages, Paper $2.25

University of Chicago Press, Chicago 60637
Khrushchev and the Soviet Leadership: 1957–1964

By Carl A. Linden

Khrushchev is seen here as a leader who pursued a policy of innovation and reform that gave shape to the conflicts within the Soviet regime.

"In my opinion it is one of the most significant scholarly works yet produced on the politics of the Khrushchev era. The book will undoubtedly see use in university courses in Soviet politics. I recommend this study without hesitation."

—Robert C. Tucker, professor of politics, Princeton University.

Eastern Europe in Transition

Edited by Kurt London

In this balanced picture of the social, political, and economic developments now occurring in Eastern Europe, fourteen specialists discuss the nature of nationalism, the effects of the Sino-Soviet split, Soviet aims in Eastern Europe, potential areas of unrest, the effects of the reduction of centralized economic management, and the implications for Western policies.

Published in cooperation with The Institute for Sino-Soviet Studies.

Women in the Soviet Economy

By Norton T. Dodge

Written under the auspices of the National Science Foundation, this study of the important role played by women in Soviet science, engineering, and medicine discusses issues of vital interest to economists everywhere. The author contrasts the differences between the labor forces in the U.S. and the U.S.S.R. and examines demographic and other factors encouraging the high rate of participation of women in the Soviet labor force.

STALIN'S WORKS

An Annotated Bibliography

Compiled by Robert H. McNeil. Part I covers Stalin's works from the beginning of his political life to 1934 in 895 entries. Part II continues Stalin's career from 1934 to 1953—the period when Stalin's power was at its zenith. There are also substantial essays by the bibliographer concerning the authenticity of material attributed to Stalin and the editorial policies followed in the preparation of his official Sbornik (Collected Works).

SOVIET AND RUSSIAN NEWSPAPERS

GUIDE TO RUSSIAN REFERENCE BOOKS

Volume V: Science, Technology and Medicine
By Karol Maichel. The present volume attempts to familiarize the English-speaking scholar and librarian with the reference tools that will keep him abreast of technical developments in the Soviet Union. Volume V covers—besides general science, general technology and medicine— agriculture, astronomy, theological science, chemistry, earth sciences, food sciences, forestry, mathematics, and physics.

THE COMMINTERN: HISTORICAL HIGHLIGHTS

Essays, Recollections, Documents

Edited by Milward M. Drachkovich and Bronka Lazitch. The Thirld (Communist) International or “Comintern,” founded by Lenin and molded by Stalin, spanned roughly the turbulent period between the two World Wars. This volume illustrates some controversial or little-explored aspects of the Communist International in the three complementary sections of the subtitle. Published for the Hoover Institution by Frederick A. Praeger, Inc. / Full Wall Press.
